MENTAL HEALTH SERVICES AVAILABLE THROUGH THE VP - FREE!

We are pleased to announce a new partnership between DEAF C.A.N. and Michigan Medicine (formerly University of Michigan Health System), with assistance from the State of Michigan Department of Health and Human Services, to begin offering mental health services on video-phone. All services will be provided in ASL by Deaf therapist (counselor), Dylan Secord, LLMSW, and ASL fluent therapist, Leslie Pertz, LMSW, NIC, both clinical social workers. The therapists will be able to see Deaf, DeafBlind, and Hard of Hearing clients from anywhere in Michigan, from New Buffalo to Alpena, and from Monroe to Copper Harbor.

The therapists will be available to help clients manage mild to moderate mental health concerns such as anxiety, depression/post-partum depression, marriage/relationship/family concerns, grief, stress, and managing chronic pain and chronic health problems. Drs. Zazove and McKee will serve as consultants to this project, but the therapists will help clients manage their mental health in coordination with a client's local doctor. If the therapists or the clients feels that videophone therapy is not the best fit for their needs, the therapists will help to find what services in the client's local community may work better. The therapists also continue to be available to see people in-person in their individual clinics.

If you would like more information about this program, please contact us to discuss your needs. deafhealth@med.umich.edu or call 810-355-2743.

Not Without Us

Lansing, MI—Staff from the Michigan Department of Civil Rights Division on Deaf, DeafBlind and Hard of Hearing (DODDBHH) will host an informational session about the historic Not Without Us needs assessment and community survey.

The Not Without Us survey is the most comprehensive needs assessment and survey of the communities of deaf, deafblind and hard of hearing in the state's history. The survey is an online multimedia platform consisting of a variety of options to take it including ASL and plain text. It covers such issues as healthcare access, housing related issues and government access. The last time any sort of needs assessment for these communities was conducted was in 1989.

The survey can be accessed at NotWithoutUsMich.org. Anyone who is a member of the deaf, deafblind or hard of hearing communities 13 years and older can take the survey. Parents or guardians of minors under 13 are encouraged to take the survey for the youth in their care. Senior citizens and veterans who may have developed hearing loss are often unrepresented in such community dialogs are strongly encouraged to fill out to attend the session and take the survey.

"We've been trying to make policy and budget decisions here in Michigan based on data that is over 30 years old," said Annie Urasky, Director of DODDBHH. "Since that time, technology and access issues have changed immensely. In order to truly meet the needs of our communities, we need to know where state businesses and governments are succeeding and where they are falling behind. We are incredibly excited to get this hard data in hand to continue our advocacy in a data driven approach. That's good for our communities and it's good for Michigan, too." Team members from the DODDBHH will be on hand to answer questions about why the survey is necessary, who can take it and provide an opportunity for people to take the survey.

Traveling Again! - The Blumericks

This summer Gary and I joined our son on a trip to Japan and South Korea and wanted to quickly share with you our impressions. Tokyo, the large metropolis capital of Japan was a wonderfully vibrant city. You can see technology everywhere and I found the city to be completely in order. The Japanese are very respectful, especially to older people. We were able to visit various towers, the Emperors's Palace ground (which is a beautiful haven in the middle of city), Shibuya Crossing, Ginza district (looks and feels like Time's Square) and the Tokyo SkyTree. My son even arranged for us to go to a coffee house run and owned by the Deaf as well as a Deaf family-owned and run restaurant! Boy, I have to tell you that the hotel room was very small and Gary and I had to crawl over each other just to go to the bathroom! Ha! From here, we jumped on the super fast, and always on time, bullet train down to Kyoto - the old capital of Japan. This, for me, was the highlight of our trip as we were able to visit various amazing temples - Buddhist and Shinto and learn about the long history. The Gion district, where we stayed, is just like out of a movie with it's lanterns and dark wooden buildings and small streets. We sampled wonderful fresh sushi and other foods - my son enjoyed the Sake! You could see the Maikos and Geishas going from appointment to appointment and it felt like another time. I even dressed up as a Geisha! Can you imagine me wearing those wooden high shoes and all that makeup and wig? I did it! Gary and my son dressed up like Samurai's and thoroughly enjoyed it. From here we continued down by train to Hiroshima. This was a somber experience to see where the nuclear bomb was dropped and the eternal flame. I don't think any trip to Japan is complete without seeing this. From here we ventured by a super fast ferry from Fukuoka to Busan in the South of Korea. Here we expected to have some beach time but unfortunately, we had to live through a typhoon. This meant a lot of rain and a lot of rest. This city is kind of like a beach resort for South Korean but we also saw a lot of American military on vacation too. Finally, we traveled by the fast Korean train up to Seoul. THIS is a massive city and even with fast subways, it can take one hour to get from place to place. We stayed in the very fashionable Gangnam district (some of you hearing people may remember the song "Gangnam Style"). We toured various districts, ate wonderful Korean BBQ and even visited the 4th tallest tower in the world called the "Lotus". We booked a tour to the DMZ zone but unfortunately that was cancelled due to the Secretary of State visit. Frown. If anybody has any questions, just ask!

Presented by Linda Greenfield, NAD V Master, NIC-Master, RID TC, CI, CT, SC:L.

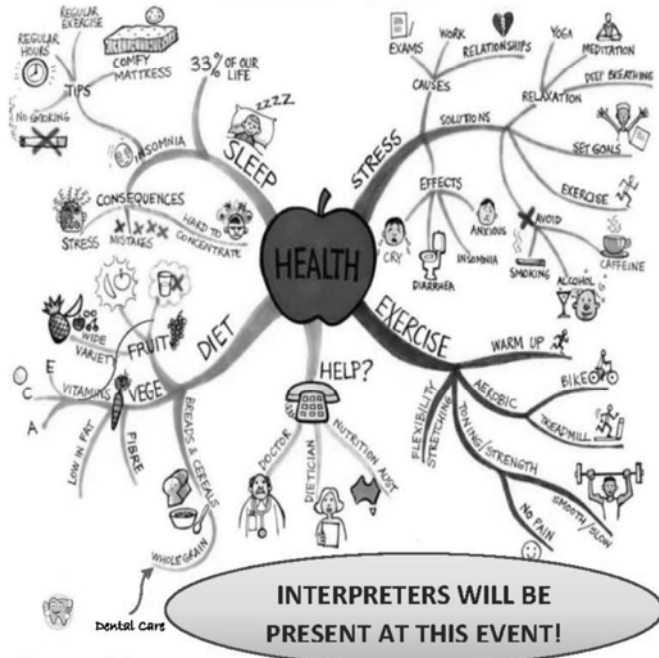

What are the legal parameters that impact lines of questioning by attorney during direct and cross examination, interrogatories, depositions and interviews. And what impact does our translation have on the legal strategy behind the framing and execution of lines of questioning conducted by attorneys? Are there appropriate linguistic strategies associated with marking different types of question forms? Does decision latitude, social construction power language or power dynamics influence our interpreting decisions or strategies with the Deaf persons involved? With members of our interpreting team?
